

Rebates

Springfield Public Utilities provides rebates to residential customers who install energy-efficient technologies in their home. The table below shows the available rebate amounts and requirements.

All residential rebate requests can be applied for through the online portal here:

<https://energyinsight.p3.enertrek.com/>

For questions and/or commercial customer rebates, please contact:

Category	Measure	Requirements	Rebate Amount
Appliances	Clothes Dryer (Electric)	Must be Energy Star approved	\$30 / unit
Appliances	Clothes Washer (Electric)	Must be Energy Star approved	\$30 / unit
Appliances	Dehumidifier	must be Energy Star approved and UEF greater than 2	\$25 / unit
Appliances	Dishwasher	Must be Energy Star approved	\$25 / unit
Appliances	ENERGY STAR Air Purifier	Must be Energy Star approved	\$10 / unit
Appliances	Refrigerator/Freezer	Must be Energy Star approved	\$30 / unit
Appliances	Secondary Refrigerator/Freezer Removal	Must be removing 2nd unit	\$50 / unit
Heating & Cooling	Air Conditioner Room Unit / Window AC	Must be Energy Star approved	\$10 / unit
Heating & Cooling	Central AC / Air Source Heat Pump Tune Up	Only 1 available every 2 years.	\$25 per tune up
Heating & Cooling	Cold Climate Heat Pump (Central Air)	Must be Energy Star approved or over 15.2 SEER2, 10.6 EER2, 8.1 HSPF2 & COP $\geq$ 1.75 @ 5° F	\$1,000 /condensing unit
Heating & Cooling	Cold Climate Heat Pump (Mini Split)	Must be Energy Star approved or over 15.2 SEER2, 11.7 EER2, 8.5 HSPF2 & COP $\geq$ 1.75 @ 5° F	\$1,000 /condensing unit
Heating & Cooling	Central Air Conditioner	Must be Energy Star approved or over 15.2 SEER2 and 11.5 EER2	\$150 /condensing unit
Heating & Cooling	Mini Split Air Conditioner	Must be Energy Star approved or over 15.2 SEER2 and 12 EER2	\$150 /condensing unit
Heating & Cooling	Central Air Source Heat Pump	Must be ENERGY STAR or over 15.2 SEER2, 10.6 EER2 & 7.2 HSPF2	\$750 /condensing unit
Heating & Cooling	Mini Split Air Source Heat Pump	Must be Energy Star approved or over 15.2 SEER2, 11.7 EER2 & 7.8 HSPF2	\$750 /condensing unit
Heating & Cooling	Programmable Thermostat with Electric Heating Only	Must be Energy Star approved	\$25 /unit
Lighting	Custom Lighting	Not to exceed 75% of lamp/fixture cost	75% of cost up to \$10 per bulb
Lighting	LED Holiday Lighting	Not to exceed 50% of cost of string	\$3 / String if $\leq$ 100 Light per String \$7 / String if $>$ 101 and $<$ 299 per String \$10 / String if $\geq$ 300 per String
Lighting	LED Lighting	Screw in lighting only, not to exceed 75% of cost	75% of cost up to \$10 per bulb
Misc.	ECM Circulators	Not to exceed 50% of pump cost	\$50 / unit
Misc.	ENERGY STAR Ceiling Fan	Must be Energy Star approved	\$5/ unit
Misc.	ENERGY STAR Ceiling Fan w/ Integral LED Light	Must be Energy Star approved	\$10 / unit
Misc.	Heat Pump Water Heater	Must have UEF $\geq$ 2 if water heater is $\leq$ 55 gallons. Must have UEF $\geq$ 2.2 if water heater is $>$ 55 gallons.	\$400 /unit
Misc.	Tier II Power Strip	Must be Tier 2	\$20 / unit
Misc.	Pipe Insulation (Electric Water Heating Only)	Must have electric water heater	\$2 / foot, up to 75% of cost
